*The requested loading and/or unloading services that cannot be provided within the port's capabilities, and the situation where the project owner performs loading and/or unloading with their own means, will result in the application of 50% of the basic fees stated in the project cargo tariff.

*The specified tonnages are calculated by rounding up.

*Lashing/Unlashing services are not included in fees.

*In the case of other services (gang waiting fee, unnecessary occupation, etc.) come into being, these will be charged over the Port prices.

*Before the service will be given, concerning Port expenses with %10 deposit plus need to be invested in the business account.
